

Artificial Intelligence (AI) Usage Policy

Purpose: Ensure ethical AI use for learning, placements, and academic integrity.

Permitted Uses:

- Resume improvement (clarity, grammar, impact)
- Mock interview practice
- Concept learning (DSA, OS, DBMS, etc.)
- Study schedule generation
- Company prep briefs (must verify with official sources)
- Code review support (student must explain logic)

Prohibited Uses (with Enforcement):

1. **Fake experience** – No fabricated projects/internships
Detection: Mentor oral defence + code walkthrough
2. **Voice cloning** – No AI-generated voice in interviews
Detection: Recruiter verification + live interaction checks
3. **Academic falsification** – No fake CGPA/marks/transcripts
Detection: Cross-check with academic portal
4. **Ghostwriting** – No AI-written SOPs/motivation letters
Detection: Mentor compares past writing samples

Accountability: Students must explain all AI-assisted outputs. Failure = misuse.

Principle: AI is a learning tool, not a shortcut for bypassing competence.

Enforcement: Violations may lead to placement disqualification, reporting, or access restriction.

Declaration: I agree to follow this policy.
